PURPOSE OF THE APPROPRIATION

This annual appropriation supported policy direction and coordination of all GSA programs by the Administrator, Deputy Administrator, and Regional Administrators, as well as congressional and public affairs activities, agencywide acquisition policy, planning, and coordination. In earlier years, it also provided for centralized administrative support be staff offices (see History section). Except as otherwise provided, the appropriation was available for new obligation only during the year for which it was enacted. In FY 1995, its direct functions were assumed under a successor appropriation, Operating Expenses.

AUTHORITY FOR THE PROGRAM

The activities supported were authorized by the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 471 et seq.); Public Law 95-491; Public Law 79-726; Indian Claims Commission Act, as amended).

HISTORY OF THE PROGRAM

The General Management and Administration (GMA) appropriation was established in FY 1981 by merging two predecessor appropriations, Salaries & Expenses, General Management & Agency Operations (prior to FY 1975, titled Salaries & Expenses, Office of Administrator) and Salaries & Expenses, Administrative & Staff Support Services (prior to FY 1975, functions were financed under the Administrative Operations Fund). These activities, associated with overhead support for agencywide operations, were merged to eliminate confusion, increase and promote efficiency, and reduce paperwork and cost accounting expenses.

In 1982, two more appropriations, Indian Trust Accounting and Public Services, were merged into this program. To promote efficiency, the Indian Trust Accounting function was included under the Budget, Accounting, and ADP (later Comptroller) budget activity. Mid-way through FY 1982, Public Services functions were transferred to the Automated Data and Telecommunications Service (ADTS, later the Office of Information Resources Management (OIRM) and Information Resources Management Service (IRMS)) (Federal Information Centers) and the Federal Supply Service (FSS) (Business Service Centers). It was felt that these activities could operate more effectively and efficiently in an appropriation where functions were more closely related.

Also in 1982, the Office of Human Resources and Organization (HRO) was disestablished, and functions assigned to the Office of Organization and Personnel and Office of Oversight (later Policy and Management Systems). The Oversight office incorporated previous HRO administrative services functions, and became responsible for an additional agencywide oversight role. The budget activity structure was changed to reflect this reorganization.

In 1983, the Comptroller's Data Processing Office, and responsibility for all GSA data processing support, was transferred to OIRM. While the function remains organizationally part of OIRM, it was made reimbursable in 1984, and amounts related to support for GMA staff offices were returned to the account in that year.

A budget activity was also established in 1983 for the newly created Offices of Project Control and Oversight (OPCO), regional organizations under the direction of the Office of Operations (created in 1982 to manage regional operations, but included under Executive Direction). Direct OPCO funding in 1983 reflected transfers from a number of GSA appropriations previously supporting its contract review/clearance and oversight functions; in that year it also had a large reimbursable program reflecting payment from the Federal Buildings Fund and other non-appropriated sources for similar functions supporting those accounts. Also in 1983, the Budget, Accounting, and ADP activity was retitled Office of Comptroller.

Also in 1983, GSA's Office of Transportation Audits was transferred from FSS to GMA, and became part of the Comptroller budget activity; transportation audit activities were later expanded by authority in the 1984 appropriation act to permit use of commercial audit firms to augment inhouse activities. GSA administrative services functions were also centralized under the Office of Oversight/Policy and Management Systems, and associated resources were transferred from the other components to GMA. Business Service Center functions were also returned to GMA from FSS. In 1984, all OPCO functions became direct-funded, and the Office of Operations was moved from Executive Direction to the same budget activity, which was retitled Operations (later Regional Support and Operations, and then Field Administration); the expanded budget activity included OPCO, the Office of Operations, and the costs of GSA's 11 Regional Administrators and their immediate staffs. In other 1984 realignments, the Organization and Personnel office became the Office of Administration, which also assumed responsibility for congressional affairs and remaining public affairs activities; the Oversight Office was renamed the Office of Policy and Management Systems. After these changes, the Executive Direction activity financed only the Central Office costs of the Administrator's office and several small staff offices reporting directly to him.

Effective April 1, 1985, a newly-independent (Pub. L. 98-497) National Archives and Records Administration assumed responsibility for support services that GMA had centrally provided to the former NARS, and related resources were transferred.

GSA Order ADM 5440.321 of March 5, 1985, abolished the Finance Divisions in Regions 1 and 8. ADM 5440.319, also of March 5, 1985, abolished Administrative Services Divisions in Regions 1, 8, and 10. Effective September 15, 1986, the entire Office of Administration in Regions 1, 8, and 10 was abolished by ADM 5440.325, with responsibilities assumed by Regions 2, 6, and 9. ADM 5440.345 of April 4, 1986 then abolished the Office of the Deputy Regional Administrator, with budget, management analysis, OPCO, and regional legal counsel functions reporting to Regions 2, 7, and 9.

Regional Comptroller activities also underwent further consolidation. ADM 5440.331 of September 30, 1985 directed the phased closure of Finance Divisions in Regions 2, 4, 9, and NCR. By 1986, nationwide GSA accounting is performed entirely in Regions 6 and 7 (Regions 3, 5, and 10 had been earlier consolidated into Regions 2, 6, and 9).

GSA Order ADM 5440.332 of October 31, 1985 established a new Office of Policy Analysis, reporting directly to the Administrator. It is included under the Policy Direction budget activity.

GSA Order ADM 5440.333 of November 1, 1985, also made significant changes in the CO GMA organization. Effective November 17, 1985, the Office of Policy and Management Systems was abolished, and its remaining functions were variously assigned to the Office of Administration, Office of Inspector General (separate appropriation) and the National Capital Region (for GS Building facilities management). The Office of Transportation Audits was transferred from the Comptroller to FSS; related funding was transferred in 1986. The Office of Congressional Affairs was reassigned from the Office of Administration to a separate office reporting to the Administrator. A new Office of Public Affairs was established, to include functions previously under the Office of Administration and the Consumer Information Center, which was transferred from OIRM (CIC remains a separate appropriation. The Offices of Congressional and Public Affairs are budgeted under the Policy Direction activity.

In mid-1986, Business Service Centers and contract clearance became reimbursable activities; 1987 marked the first full year of funding on this basis.

GSA Order ADM 5440.388 of July 27, 1988, transferred responsibility for GSA's commercial activities program (under OMB Circular A-76) from the Office of Administration to the Office of the Comptroller.

In the 1989 President's Budget, activities formerly under Executive Direction, Legal Services, Acquisition Policy, and Operations were combined for budget presentation into a single activity, Policy Direction.

In FY 1992, Congress approved converting GMA's centralized internal administrative and staff support services from direct appropriations to reimbursable funding; reimbursement was from all GSA benefiting accounts. This was to provide for the efficient distribution and recovery of all costs without complicated and unnecessary recordkeeping.

In FY 1995, the GMA account was consolidated with other GSA salary and operating expense appropriations into a new annual appropriation, Operating Expenses.

DESCRIPTION OF BUDGETARY ACTIVITIES

In its last year, FY 1994, the appropriation was divided into the following budget activities:

- 1. <u>Policy Direction</u>. This activity provided for the formulation and execution of agency policy, oversight of the acquisition process, and for functions assigned to GSA by the Federal Property and Administrative Services Act of 1949, as amended. It also provided for the Regulatory Information Service Center, which compiled and analyzed data concerning Governmentwide and agency-specific regulatory, information resource management, and statistical activities
- 2. <u>Indian Trust Accounting</u>. This activity provided accounting services to the Department of Justice in defense of Indian tribal claims against the U.S. Government.
- 3. <u>Board of Contract Appeals</u>. In accordance with the Contract Disputes Act of 1978, the Board had jurisdiction over any dispute relating to a contract for the provision of goods and services to the Government, inclusive of, but not limited to, disputes clause cases concerning contract performance; appeals of disappointed bidders; and proposed debarment or suspension actions. In addition, the Board served as an administrative trial court for resolving ADP bid protests under the Competition in Contracting Act, Title VII of the Deficit Reduction Act (Pub. L. 98-369).
- 4. <u>Reimbursable Operations</u>. Centralized internal administrative support services were reimbursably funded from GSA's benefiting accounts. This included administrative, financial, and management support; legal advice and services and equal employment opportunity, budgetary policy and liaison activities with OMB and Congress; and liaison with the Small Business Administration on national minority business proposals and contracts, to ensure that minority and small businesses received a fair share of the agency's business.

DEVELOPMENT OF APPROPRIATION LANGUAGE

The initial appropriation for this program resulted from identical language in the House and Senate versions of the 1981 Treasury, Postal Service, and General Government Appropriation, which was subsequently enacted under a continuing resolution. Changes over the years reflected various functional transfers and later conversion of administrative support from direct to reimbursable funding. Language as it existed in the last year of the appropriation, FY 1994, is as follows:

"General Management and Administration Salaries and Expenses

1994	46,074	31,435	31,435	31,435	31,435	103-123	10/28/93

First two continuing resolutions provided authority through 12/15/80 and 6/5/81, respectively. The Supplemental Act (P.L. 97-12) extended authority through 9/30/81. By terms of the ConRes, annual availability was the House level, when only the House had passed a bill, as was the case here.

Subsequent to House passage and initial Senate action, the President reduced his budget request for most discretionary accounts by 12%; final Senate action reflected the reduced request.

Four continuing resolutions provided authority through 11/20/81, 12/15/81, 3/31/82, and 9/30/82. By the terms of the last resolution, annual availability was the lower of the House or Senate amount, further reduced by 4 percent.

y
House and Senate amounts same, determining annual ConRes availability.

5/ Terms of the ConRes stipulated annual amounts at the <u>rate</u> (amount) of the Senate bill.

6/
Sec. 2901 of the Deficit Reduction Act of 1984, Pub. L. 98-369, required specific governmentwide reductions in administrative costs for travel, consultants, public affairs, and printing; OMB was to determine each agency/account share of the total reduction. OMB initially proposed \$800 thousand as the GMA prorata share, but GSA argued that \$239 thousand should be the maximum reduction to avoid mission impact. \$403 thousand was the final OMB determination, which was rescinded.

7/ Reprogramming from OE, OIRM (\$200,000) and Expenses, Presidential Transition (\$1,500,000) in lieu of new supplemental appropriations. An additional \$500,000 was also provided from OE, FPRS prior-year balances.

Largest OMB adjustment to request was for a 10% reduction in adminstrative costs. House and Senate figures do not reflect the impact of general reductions to amounts otherwise appropriated proposed by floor amendments; these were not adopted in conference.

Permanently cancelled budget authority under a sequester pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985, Pub. L. 99-177 (Gramm-Rudman-Hollings).

Net of transfers: From GMA: \$127,600 to OE, TPUS for Data Systems Support; \$137,000 to OE,FSS for FPMR; and \$178,000 to Public Services for Customer Relations. To GMA: \$194,500 from TPUS, FSS, and NARS for ARCO; \$156,000 from TPUS, FSS, NARS, FPRS, ADTS, and Public Services for SES Training; \$355,100 from FSS, NARS, FPRS and ADTS for OSHA; and \$106,000 from FSS for Soc. Econ.

Yet transfer: From GMA: \$187,000 to OE, ADTS for Acquisition Support Staff; \$1,647,000 to OE, ADTS for Federal Information Centers; \$1,611,000 to OE, FSS for Business Support Centers; and reprogrammings under transfer authority to OE, FSS (\$1,445,000) and OE, TPUS (\$426,000). To GMA: \$209,300 from FSS, NARS, TPUS, ADTS, and FPRS for administrative services consolidation (GSA Order ADM 5440.259).

Net transfer: From GMA: \$27,233,000 to FSS, TPUS, OIRM, NARS, FPRS, CIC for transfer of Data Systems; To GMA: \$4,319,000 from FSS, NARS, FPRS for OPCO functions (includes \$2,823,000 from FSS for Business Service Centers); \$993,000 from FSS, TPUS, NARS, FPRS, and ADTS for administrative services; \$6,718,000 from OE, TPUS for transfer of Transportation Audit function; \$291,000 from FSS, TPUS, ADTS, NARS, and FPRS for transfer of emergency relocation functions; and \$3,000 from FSS for shuttle service.

\$150,000 transferred from GMA to Office of Inspector General under transfer authority. Transfer of \$682 thousand from OMB for Federal Acquisition Institute. \$407 thousand transferred from other GSA accounts to GMA for Employee Learning Centers/training. \$55 thousand from NARS to GMA for Committee Management functions. \$9,103 thousand from OIRM to GMA for data systems cost now reimbursable.

\$231 thousand transferred from NARS for Committee Management; \$2,395 thousand transferred to NARS as half-year cost of central support functions to be performed by the new agency. \$500 thousand made available from OE, FPRS prior-year balances by Pub. L. 99-88, in lieu of pay supplemental.

\$6,813 thousand to OE, FSS for transportation audits; \$650 thousand to Inspector General for Audit Resolution Field Representatives; \$77 thousand to

OE, IRMS per GSA Order ADM 5440.333; \$985 thousand to OE, FSS for Business Service Centers and contract clearance; and \$1,117 thousand to OE, FSS reprogramming under transfer authority.

\$1,930 thousand to OE, FSS for Business Service Centers and contract clearance.

8/ \$100,000 from OE, FPRS for Program Support Office.

1/
Actual data; the budget does not show the organization in 1985 for comparability with the new organizational structure.

* Data include reimbursable personnel not financed from the direct GMA account; FTE will exceed workyears in budget exhibits for the direct program. Starting in FY 1991, however, data reflect direct only (see reimbursable section for those FTE).

NOTE: FTE may not add to totals due to rounding.
